TYREX[®]
GROUP, LTD.

Family of Technology Companies

**Built To
Work ...
Built To Last**

ABOUT US

Our Philosophy

The technology companies that make up the **TyRex Family** are connected by something beyond the industry itself – something that we think is truly special. From our uncompromising commitment to quality and customized solutions for the entire life cycle of your product to our lasting relationships forged by personal commitments to our business partners, TyRex is a company built to last.

OUR MISSION

To provide the high-tech market with superior products and services by assisting our customers through all stages of the product life cycle, so that we may create cost-effective solutions and foster long-lasting business relationships.

BUILT TO WORK ... BUILT TO LAST

TyRex was founded on the idea of building a company that would last 50 years and beyond, through a strong company culture that reaches beyond the boundaries of business. Our culture and **Circle of Business Trust** philosophy connects us not only to our business partners, but to each employee and our community as well. Our goal is to foster long-lasting business relationships and treat each project as a vital part of our customer's ultimate success.

In the spirit of building lasting community relationships, TyRex became a founding partner in RecognizeGood®, a 501(c)3 organization which shines a light on the people and organizations doing good work in the community. Along with this signature long-term community endeavor, TyRex established defining principles known as the TyRex Diamond Disciplines which guide each and every decision we make.

TYREX DIAMOND DISCIPLINES

COMMUNITY SERVICE

An upstanding community partner that emphasizes merging business with community, TyRex is proud to take part in a wide range of service initiatives. Some of the organizations we are closely involved with include:

OUR COMPANIES

SabeRex®

SabeRex

One Call ... Problem Solved!

Custom Logistics, Builds, Repairs & Field Services

A preferred service provider for major original equipment manufacturers (OEMs), **SabeRex** offers a wide array of technology services with capabilities across the entire United States and beyond. Backed by a management team with diversified expertise spanning industries from aerospace and telecommunications to retail, oil & gas, information technology, alternate energy and more, SabeRex provides solutions throughout a product's entire life cycle that range from simple to complex and can take our clients' products from beginning to end or anywhere in between. We have built our reputation on best-in-class, custom services in six major **Core Competencies**, which combine to create a **total-solution** approach including everything from additive manufacturing, assembly and customized kitting to flexible deployment, complex repairs and expert field services.

Core Competencies

- ▶ Additive Manufacturing
- ▶ Integrated Logistics
- ▶ Value-Add Configuration
- ▶ High-Value Electronics Repair
- ▶ Complex Contract Manufacturing
- ▶ Technical Field Services

TEKREX

TekRex

Accelerating every stage of a product's lifecycle

Created as the development arm for the TyRex Technology Family, **TekRex** leads its manufacturing partners from research to production. As a team of experienced problem solvers, we drive development projects that allow the exploration of your new opportunities without diverting valuable resources from your operations.

We are 3D printing experts with a wide range of printers on-site to support the demands and requirements of virtually any project. We have hands-on experience with 3D printers based on Fused Filament Fabrication (FFF), Stereolithography (SLA), Digital Light Processing (DLP), Digital Light Synthesis (DLS | CDLP), and Multijet technologies, as well as the design software and post-processing equipment required to operate each successfully at scale.

Services

- ▶ **Prototyping & Development:** *Get up and running in days, not weeks.*
- ▶ **Design Engineering:** *A range of expertise from start to finish.*
- ▶ **3D Product Optimization:** *Build from the beginning with the end in mind.*
- ▶ **Engineering Staffing:** *The power to push your project to the next level.*

OUR COMPANIES

MEGLADON
MANUFACTURING GROUP, LTD

Megladon

Fiber Optic Products & Innovation

A global industry leader in fiber optics and your premier partner for fiber optic connectivity, **Megladon** has spent over a decade developing fiber optic technology and perfecting the HLC® interconnect. Our patented technology and process results in a reference grade interconnect that is reliable, rugged, repeatable and provides maximum performance. With millions of our products deployed worldwide, our fiber optic technology has been proven time and again to solve many of the problems encountered in network deployment and maintenance. We have also been able to use HLC as the foundation piece to develop unique and passive fiber optic solutions for our customers.

Products:

- ▶ **MPO / MTP® Distribution & Assemblies**
- ▶ **Singlemode & Multimode Premise Jumpers**
- ▶ **Indoor Trunk Assemblies**
- ▶ **Fiber Distribution**
- ▶ **OSP, Indoor / Outdoor, Node Cables**
- ▶ **WDM & Couplers / Splitters**
- ▶ **Test & Verification Assemblies**

SABER DATA

Saber Data

Software Development & Information Technology

Saber Data is your premier partner for software development with a dedicated team experienced on a wide range of platforms including mobile (Android, iOS, Windows), Linux and Windows. In addition to our development offerings, we also provide hardware and software integration, resource augmentation, project management / planning, IT management, website services and consulting. Over the years, Saber Data has offered customers in a vast array of industries (including Oil & Gas, Healthcare, Logistics, Gaming, Bitcoin, Retail / Etail, Telecom, Nonprofits) with custom, stand-alone and bundled services to meet their software, hardware, online and IT needs. With a team that has over 120 years combined of technical experience in Java, .Net, Oracle, SQL, Sharepoint, SAP, C+, HTML/5, Perl, Open-Source and more, we are ready to tackle and solve your information technology issues as well as your software needs.

Services

- ▶ **Software Development**
- ▶ **Integration**
- ▶ **Project Management**
- ▶ **Consulting**
- ▶ **Information Technology**
- ▶ **Resource Augmentation**
- ▶ **IT Management**

OUR HISTORY

Founded in 1995 by John Bosch, Jr. and Andrew Cooper, TyRex began in a small cubicle with the dream of building a world-class organization that, founded on sound business and ethical principles, would last 50 years and beyond. Being "built to last" remains the foundation of our business, employee, and community relationships. The union of ideas, aspirations and entrepreneurial spirits between Bosch and Cooper began as a premier cable manufacturer called the TyRex Manufacturing Group, so named after the Tyrannosaurus Rex and its characteristics of strength, courage, confidence, passion and commitment. Today, the TyRex Technology Family includes eight independent businesses and five associated entities, each focused on a specific market while able to collectively provide customized solutions for the entire life cycle of a product. The commitment to quality, innovation, and lasting relationships is what makes the TyRex Technology Family "*Special* By Design".

OUR DIAMOND DISCIPLINES

TYREX
GROUP, LTD.

1

Prosperity To Longevity

2

Employee Well-Being

3

Community Citizenship

4

OUR COMPANIES

Arctos
Assembly Group

Arctos Assembly Group

System Integration & Assembly

Backed by a highly-skilled staff with expertise in assemblies for a multitude of industries, **Arctos Assembly** has provided full "built-to-print" contract manufacturing services for system-level assemblies (box builds), sub-assemblies and printed circuit board (PCB) assemblies since 2001. Our end-to-end solutions set us apart in a widely transactional industry, specializing in supply chain management customized integration, rigorous testing and dedicated delivery.

Services

Capabilities

- ▶ PCB Assembly
- ▶ Systems Integration and Testing
- ▶ Intelligent Imaging
- ▶ X-ray
- ▶ Ultrasonic Welding
- ▶ DFM Review
- ▶ Process Engineering

Boards

- ▶ Leaded PCBs
- ▶ RoHS-Compliant PCBs
- ▶ Rigid PCBs
- ▶ Flex PCBs
- ▶ FR-4 PCBs
- ▶ Metal PCBs
- ▶ Hybrid PCBs

Components

- ▶ BGA
- ▶ uBGA
- ▶ PCBs
- ▶ Fine-Pitch
- ▶ Through-Hole
- ▶ 4 Mil
- ▶ Potting
- ▶ Coating

Austin Reliability Labs

Austin Reliability Labs (ARL)

Product Reliability Testing, Consulting & Staffing

Recognized as one of the top product reliability labs in the country, **Austin Reliability Labs (ARL)** is a place where we recognize the hard work and passion that went into the design and development of your product. We have that same passion for excellence, and want to find any problems that your product may have in an effort to perfect it. We also understand that a reputation is something that builds over time, and we support that by making long-term partnerships with our clients. With that in mind, we not only write and develop all of the tests that we perform, but, unlike other labs, we also provide pass / fail reports on all of our tests and decipher the results for you in order to maximize your product's success. Led by an expert engineering staff, our ISO/IEC 17025 accredited lab provides the reliability tests as well as test strategies and consultation that your products need at the right price.

Services

- ▶ Halt / Hass Testing
- ▶ Environmental Testing
- ▶ Qualification Testing
- ▶ Custom Testing
- ▶ Battery Life Testing
- ▶ Mechanical Testing
- ▶ Additive Manufacturing Testing
- ▶ Consulting & On-Site Staffing

OUR COMPANIES

DLi

DLi DIGITAL LIGHT
innovations

Digital Light Innovations (DLi)

World Leader in DLP® Light Exploration

Regarded as the world leader in DLP® light exploration, **Digital Light Innovations (DLi)** is a full service design and manufacturing company with extensive experience in creating unique DLP®-based solutions for a broad range of applications. We are not only experts in DLP® interface and electronic controller board design, but specialize in custom optics as well as prototype design and development.

Notably, DLi was the first to receive the DLP® Authorized Design House designation from Texas Instruments (TI). DLi has partnered with TI to design the electronic controller boards, firmware and software for the Explorer API and Control Software utilized by the best-selling DLP® Discovery™ 4100 platform. DLi also partners with TI to manufacture the DLP® LightCrafter™ 6500 & 9000 EVMs and Development Kits.

Products & Services

- ▶ **DLP® Light Engines**
- ▶ **DLP® Development Kits**
- ▶ **DLP® Optics Modules**
- ▶ **DLP® Parts & Assemblies**
- ▶ **DLP® Chipsets**
- ▶ **DLP® Optics Bundles**
- ▶ **Manufacturing Solutions**
- ▶ **Design Services**
- ▶ **Custom Optics**
- ▶ **Development Process**
- ▶ **Illumination Sources**

iRex

Custom Cable Assemblies

Established in 2000, **iRex** is a recognized industry leader in supplying manufacturing services and engineered solutions for custom cables, from over-molded and discrete cable assemblies to electronic sub-assemblies, wire harnesses, and value-added turnkey products. iRex is your custom cables and assembly partner – that means we provide customers with high quality products, competitive pricing, and unparalleled service. More than 2 million feet of wire are processed each year in our certified facility, and our highly-skilled staff consistently engineers solutions for unique technology industries.

Products & Services

- ▶ **Wire Harness Assemblies**
- ▶ **Peripheral Connectors**
- ▶ **RF/Coaxial Cable Assemblies**
- ▶ **Flat Ribbon & Flat Round Cables**
- ▶ **40AWG to 4/0AWG**
- ▶ **Custom Overmold Assemblies**
- ▶ **Kitting**
- ▶ **Micro/Mini Connectors**
- ▶ **Solar Cable Assemblies**
- ▶ **Testing**
- ▶ **ThermoCouplers**
- ▶ **Tooling**
- ▶ **Wire & Cable Stripping**
- ▶ **Wire & Cable Tinning**
- ▶ **Wire & Cable Termination & Crimping**
